PREFACE

All praises and thanks the researcher gratitude to Allah SWT who has bestowed His grace, taufiq and inayah, so that the researcher was able to complete the final project as a requirement for this graduation well. Sholawat remains devoted to our prophet Muhammad SAW, who has brought his people from the age of jahiliyah to the age of civilization full of divine light. May we receive his intercession in the future. Ameen.

It does not feel like it's been three years since the researcher studies at IAIN Kudus. The researcher has also completed all courses well. Then the time came for the researcher to do the final project, namely the thesis. Thank you to all those who have supported and motivated the researcher so that I can complete the thesis with the title "The Analysis of Speaking Assesment Types in English Textbook Entitled "English For Nusantara" For the Eight Grade of Junior High School". The researcher realized that this research could not have been completed without the help and support of several parties, especially the supervisor who has directed and provided knowledge to researcher on this occasion.

The researcher has worked as much as possible in carrying out this research, but no human is perfect, so the researcher realized that there are still shortcomings in both rules of language and content. Therefore, the researcher was pleased to accept constructive criticism and suggestions from readers to make it better for the future, and the researcher hopes that this reasearch can be useful for all.
